Career Objective

As an undergraduate data science student, I am a diligent and adaptable team member known for my quick learning and leadership skills. I excel at bringing diverse perspectives together to achieve common goals and thrive in dynamic, innovative environments. I look forward to contributing my strong analytical abilities and programming skills to your organization.

Experience

- **FAITE** *Mar 2025 – Sept 2025*
AI/ML Developer Intern
[faite](#) [🔗](#) Jaffna, Sri Lanka
 - Worked on multilingual NLP systems using transformer-based models and semantic retrieval techniques.
 - Implemented and evaluated embedding-based search pipelines with FAISS for accurate and reliable AI outputs.

Technical Skills

- **Programming Languages & Frameworks:** Python (NumPy, Pandas, scikit-learn, PyTorch, TensorFlow, Hugging Face), R, Flask, FastAPI
- **Machine Learning & AI:** Supervised Learning, Transformers, LLM Fine-tuning (LoRA, PEFT, DPO), Prompt Engineering, Model Evaluation (Perplexity, BLEU, ROUGE), Reinforcement Learning (GRPO, PPO)
- **NLP & Language Models:** Tokenization, Embeddings, Text Generation, Sentiment Analysis, Named Entity Recognition (NER), LangChain, LlamaIndex
- **Model Optimization:** Quantization, Pruning, Distillation, Efficient Training Techniques
- **Data Analysis & Visualization:** Power BI, Tableau, Matplotlib, Seaborn
- **MLOps & Tools:** MLflow, Git, Docker, AWS (EC2, S3), GitHub Actions
- **Databases & Querying:** PostgreSQL, MySQL, MongoDB

Education

SLIIT – Sri Lanka Institute of Information Technology *Dec 2023 – Present*
BSc (Hons) in Information Technology, Specialization in Data Science Malabe, Sri Lanka

- GPA: 3.01 / 4.0
- Relevant Coursework: Machine Learning, Data Mining, Statistical Computing, Natural Language Processing, Big Data Analytics

Projects

- **Cross-Lingual Legal RAG System – Sri Lankan Legal AI Assistant (2026)** Developed a technically validated cross-lingual retrieval-augmented generation (RAG) framework for public legal guidance, supporting Tamil, Sinhala, English, and Tanglish queries. Implemented Sentence Transformer-based multilingual embeddings with FAISS for semantic retrieval over a structured legal corpus, and integrated large language models for controlled generation of structured legal responses (legal sections, explanations, examples, punishments, and next steps). Ensured system reliability through out-of-scope detection, prompt-level constraints, and response consistency checks. [GitHub Link](#) [🔗](#)
- **Car Price Prediction System (11/2024 – 12/2024)** Developed a regression-based predictive model using Random Forest and XGBoost to estimate car prices based on make, model, year, and mileage. Deployed using

Flask. [GitHub Link](#) 

- **Stroke Prediction System (07/2024 – 09/2024)** Created a machine learning model using Logistic Regression, SVM, and Random Forest to predict stroke risk based on health indicators (age, blood pressure, BMI). Addressed class imbalance with SMOTE. [GitHub Link](#) 
- **Movie Recommendation System (07/2024 – 09/2024)** Implemented a hybrid recommendation system combining collaborative filtering and content-based filtering to suggest personalized movies. Used cosine similarity and matrix factorization techniques. [GitHub Link](#) 
- **Sai Photography Studio Management Platform (03/2024 – 05/2024)** Designed and developed a full-stack web application using MERN stack to manage photography studio operations, including bookings and customer management. [GitHub Link](#) 

Certifications

- | | |
|---|--|
| ◦ Introduction to Python – DataCamp | 2024  |
| ◦ Supervised Learning with scikit-learn – DataCamp | 2024  |
| ◦ Understanding Cloud Computing – DataCamp | 2024  |
| ◦ Understanding Data Engineering – DataCamp | 2024  |
| ◦ Working with the OpenAI API – DataCamp | 2025  |
| ◦ Working with Hugging Face – DataCamp | 2025  |

Achievements & Leadership

- Led an academic project successfully as a project leader.
- Participated in Provincial-level Chess Matches.
- Competed in Mathematics Olympiad.
- Participated in Athletic Competitions.

Additional Information

- **Languages:** English, Tamil, Sinhala
- **Interests:** Chess, AI Research, Movies & Anime, Mathematics and Problem Solving

Referees

- **Dr. Kapila Dissanayaka**
Senior Lecturer (Higher Grade), SLIIT
